TECHNICAL SKILLS

Java	Web Automation (Selenium)
Mobile Automation (Appium)	API Automation (REST Assured)
JMeter	Manual Testing
Postman	SQL
Maven	Jenkins
Git	

EDUCATION

Anurag Group of Institutions	(September 2014 - April 2018)
B.Tech Mechanical Engineering	

AWARDS

Star Performer	December 2018
Amazon	

LANGUAGES

English	Hindi
Full Professional Proficiency	Native Proficiency
Telugu	
Full Professional Proficiency	

HOBBIES

- Gaming
- Travelling

WORK EXPERIENCE

MediBuddy	(July 2021 - Present)
SDET-I	

- Worked on key areas like corporate using Java with Selenium & BDD Cucumber framework
- Created Test Plans, Cases and Scripts for UAT, functional and regression testing.
- Designed, wrote, and executed test scripts for web UI using Selenium and Mobile Automation using Appium.
- Used Jenkins and GitHub to streamline QA Automation.
- Worked closely with application designers/developers to resolve documentation, design & functional issues with various applications.
- Led and mentored manual QA engineers to execute and analyse automation smoke and regression tests.

Key Achievement: Added test cases for corporate module in web application

Openplay Technologies	(February 2020 - June 2021)
Associate QA Analyst	

- Analyzed business requirements and functional documents,created the test strategy document that define the test environment,phases of testing,entrance and exit criteria into different phases of testing.
- Defined and analyzed the test requirements including test data,test environments based on the application functionality.
- Involved in writing Test Case by using Design docs and Acceptance criteria. Performed functional testing,regression tesing and End to End testing of the new releases in workplace management.
- Performed extensive Cross Browser Compatibility testing on various web browsers like Google Chrome,Mozilla Firefox and Microsoft Edge and also in Mobile browsers like Chrome and safari.
- Drafted Test Plan which included testing objectives,testing phases,scenarios and test environment after a thorough analysis of the business rules.
- Aggresively pursued the resolution of high level defects in the project to facilitate smooth functioning of the test execution.

Key Achievement: Slashed testing time by 70% by creating automation scripts using selenium.

Amazon	(July 2018 - August 2019)
Machine Learning Data Associate	

- Worked towards enhancing the Response Delivery of Alexa AI (Virtual Personal Assistant) by Validating the correctness of data and by interacting with alexa app.
- Verified high priority deliverables.
- Mentored new team members for the job role.
- Worked with internal customers like ML data scientists by providing data required to improve Alexa's automatic speech recognition, NLU models and domain features.
- Involved in alexa device testing,data creation, curation and analytical services to help develop, test and train Alexa AI for English(US) language through alexa app and device.

Key Achievement: Contributed to process improvements to reduce handling time and improve output.

PROJECTS

Khelyaar	(March 2020 - June 2021)
----------	--------------------------

- Project Description : It is the Online Fantasy Sports site.
- Environment : Native Apps.
- Responsibilities : Requirement Analysis (Involved in meeting with Project manager and delivery manager).
- Create Test Plan , Resource plan ,Preparation for test case , Preparation, Modification and Testing Activity.
- Involved in manual test execution and involved in various testing phases. Sanity, Functional,Regression,Usability and E2E etc

Becurie	(July 2020 - January 2021)
---------	----------------------------

- Project Description : It is Device for listening music and it is connected with the App through bluetooth .
- Environment : Native Apps.
- Responsibilities : Requirement Analysis (Involved in meeting with Project manager and software developers).
- Create Test Plan , Resource plan ,Preparation for test case , Preparation, Modification and Testing Activity.
- Involved in manual test execution,App and device integration and involved in various testing phases. Sanity, Functional, Exploratory ,End To End and Usability.
